

Programming Portfolio Coursework 1:

Link to GitHub which includes:

Game Prototype Project Source Files, 4 Tutorials in .md format, Learning Journal in .md format, and .md file called "GamePrototypeVideo" which has a video attached to it of the game Prototype:

<https://github.com/Haruite/GameProgarrmingTutorials.git>

Name of the Repository is not accurate as it wouldn't let me rename it otherwise my computer wouldn't know where to find the directory, so name of the GitHub is "[GameProgarrmingTutorials](https://github.com/Haruite/GameProgarrmingTutorials.git)".

Second link is a backup: Links to Google Drive with all of the assets mentioned previously, except the Game Prototype Source Files are in a Z.I.P:
